Azalea Orthopedics is comprised of over 20 qualified and top-rated doctors who are trained in many different specialties. We have the knowledge and experience to treat a wide variety of orthopedic conditions.

**Dr. Bartley** explained everything so that it was easy to understand the risks versus success of the surgery. I was very impressed with his direct approach and straightforward friendly manner. I would highly recommend him!

**Dr. Beck** spent more time looking at my foot then two doctors did in 4 appointments at another provider and I left the office feeling much better. Thanks to **Dr. Beck** and his staff.

The office staff are friendly, competent and just downright wonderful. **Dr. Bowen** is a Godsend! He takes his time, talks to you a lot and has helped me immensely. I recommend him with highest regards to anyone and am so happy i found him! Five gold stars!

Always an organized and friendly environment! **Dr. Burlison** is very knowledgeable in pain management both with medications and injection procedures. Believe it or not, even the lab people are great with the UA tests. I have been going to Azalea Pain Management since moving to Tyler 6 years ago and have nothing but compliments for this business!

Thank you **Dr. Camp** for everything. Staff was polite and very helpful. **Dr. Camp** lived up to the recommendation that was given to me to go see him for my wrist. He explained everything and I felt so relieved with his diagnosis and this treatment.

A well organized facility, with an excellent and efficient staff. The pre-visit questionnaire forms were easy to understand and quick to complete. They immediately took an x-ray of my hand before my visit with **Dr. Clark**. He then examined my hand and explained his diagnosis, in detail. We discussed my treatment options and we agreed on a mutual treatment decision. I was very impressed with **Dr. Clark** and his staff.

A very friendly, helpful staff, from the time we walked in the front door until we left. Very personable. The nurse was exceptional. **Dr. Dennis** is amazing. He explained the problem so we could understand, gave us options, and helped us make the best decision at that time. We weren't rushed through, and **Dr. Dennis** visited with us awhile on a personal basis. Five stars, for sure!!

Highly recommended! No regrets this man literally changed my life for the better! The staff and service was great all of those who assisted were wonderful couldn't ask for a better crew Thanks to [**Dr. Goodfried** and] all that helped me in any kind of way through this procedure LOTS OF LOVE!

Excellent orthodpedic experience from start to finish. Office was well-organized and efficient. **Dr. Harris** was so good at honing in on my issue and prescribing the least invasive procedures to control my pain. He is easy to understand and seems to be a real people person. Highly recommend!

**Dr. Huffman** is an excellent hand surgeon and did a wonderful job on my hand and explained everything in detail and treated me very kindly and went above and beyond to treat me on a weekend.

**Dr. Jones** operated on my right shoulder after a massive tear. The tear was 4cm, after seeing two other orthos I found **Dr. Jones**. He did surgery and I'm now back to golfing and playing basketball. I'm 64 and will never have the strength I had before but **Dr. Jones** was amazing. The first Doctor I saw said I'll need a total shoulder replacement in 3 to 5 years. Thank you **Dr. Jones** and staff!

That is the most amazing staff in that medical office! And I have absolutely fallen in love with **Doctor Kaminski** and the staff that works with him! I would recommend this medical team to anyone, and have already recommend **Dr. Kaminski** to my own father! Praise God that we still have doctors that good in the field with that kind of bedside manner with their patients!

I would recommend **Dr. Kummerfeld** for any shoulder surgery. I had him plate my collarbone and he was able to get me in quickly even though I was a first time patient. He did a great job of making me feel comfortable in explaining what the surgery and post-op would entail. His staff was very positive and friendly before surgery as well as for follow ups. Thank you!

Had a vehicle wreck in November breaking the upper bone and the two bones below my elbow. **Dr. Luttrell** did emergency surgery, cleaned up the bone fragments in the lower arm. Put plates and screws on all three breaks. Still recovering. Great doctor.

I saw **Dr. Chad McNeil** for back pain after a painful injury. **Dr. McNeil** quickly pinpointed my cause of pain and I am back to exercising and enjoying my favorite activities. I highly recommend **Dr. McNeil** and Azalea Orthopedics.

[**Dr. Merrick** is] hands down the greatest spine surgeon ever! I had the same procedure 10 years prior (different surgeon), with zero relief. I assumed I would have to live with chronic pain the rest of my life. **Dr. Merrick** not only fixed my current issue, but also fixed what the last surgeon messed up! He took my pain level from a 10+ and got it down to a 3! I feel good again and I'm still healing from surgery! He truly is a caring doctor and has his patient's best interest as his number one priority!

The staff were friendly, courteous, informative, and concerned. The admission clerk was friendly, courteous, helpful, informative and genuinely concerned. All the nurses in the back were equally impressive, were concerned about my welfare, made sure I was informed about the procedure. Made sure I understood the process step by step and asked if I questions and made sure I was introduced to **Dr. Michaels** who then explained the process of the objection completely, I was very impressed with everyone because of their professional attitude and work ethic.

I think [**Dr. Patterson**] did a great job on my hand after a chainsaw nearly cost me 2 fingers. My hand was pretty mangled and you can't hardly see the scar at all! I never had much post-surgical pain (except for that wonderful therapist that tortured me, lol). **Dr. Patterson** was great, as well as the staff and Corey Starks, my therapist (and Brooke when Corey wasn't available). I was almost sad to get released.

I've had a couple of foot surgeries and my husband has had multiple with a 100% success rate each time. **Dr. Priddy** always has a smile on his face and is very pleasant. It is obvious that he cares about his patients concerns and works diligently to resolve them. I recommend him to everyone I know who is in need of a good foot doctor!!

July 2020, **Dr. Raabe** performed major back surgery that was about 8 hours long. He used the Mazor Robot to assure my rods and screws were placed in the proper location (to minimize damage to the spine/ back and nerves) and to return a natural curve to my back so I could walk upright/straight again. My recovery has been difficult at times due to the complexity of the surgery, I cannot bend, twist, or lift. **Dr. Raabe** was great and his praying with me was the best. As a nurse, I had knowledge of many things most people are not always aware of for many reasons. **Dr. Raabe** was great in keeping me informed on my situation, he always listen to my concerns, answered all my questions, allowed me to have input on things that worked best for me, and worked with me on many insurance issues. Thank you, as I continue to heal, he is still there for me.

**Dr. Russell** performed major surgery on by back 2 years ago. I am 82 years of age and pain free. Before surgery I was in constant severe pain. Thank you **Dr. Russell** for a wonderful new quality of life.

[**Dr. Schwarzbach**] is very kind, caring and he listens to you concerns. My experiences have been numerous with **Dr. Schwarzbach** and his wonderful staff; and always friendly, kind and consistent. Would recommend his office and services to others interested in non surgical orthopedic pain relief.

**Dr. Tibilletti** is a wonderful, caring doctor. I highly recommend her for your pain management needs. On top of all of this, she is a really nice lady. What more could a patient ask for from a medical provider? Her staff are great folks too. Over all an A+++ medical practice.

**Dr. Wupperman** recently did my rotator cuff surgery. Excellent surgeon and everything went very well. Typical recovery is long with this surgery, but with his skill and expertise I was up and running in about half the time I was anticipating. This type of recovery is typically painful as well and I breezed through virtually pain free with his recommendations for physical therapy and rehabilitation. **Dr. Wupperman** also did arthroscopic survey on my knee last year with similar results. I'm very pleased and would highly recommend him as an orthopedic surgeon.

## SPINE & NECK SURGEONS

MICHAEL MERRICK, M.D.

Dr. Merrick is a Board-Certified orthopedic spine and neck surgeon with fellowship training in adult and pediatric surgery. He completed a fellowship in spine surgery at the world-renowned Norton Leatherman Spine Center in Louisville, Kentucky. His interests include minimally invasive surgery, degenerative conditions in the neck and back, and deformity surgery.

TODD RAABE, M.D. NPI # 1730177056

Dr. Raabe is a Board-Certified, Fellowship trained orthopedic spine and neck surgeon specializing in adults and pediatric care. He completed his fellowship training at the Colorado Spine Center and the Rocky Mountain Spine Center in Aurora, Colorado. He has a particular interest in Robotic-Assisted Surgery, difficult scoliosis cases, and complex spinal stenosis issues.

MICHAEL RUSSELL, M.D.

NPI # 1720076052

Board-Certified and Fellowship-Trained orthopedic spine and neck surgeon, Dr. Russell specializes in treating spine injuries, deformities, and degeneration. His interests include minimally invasive procedures, decompression for lumbar spinal stenosis, and cervical spine surgery.

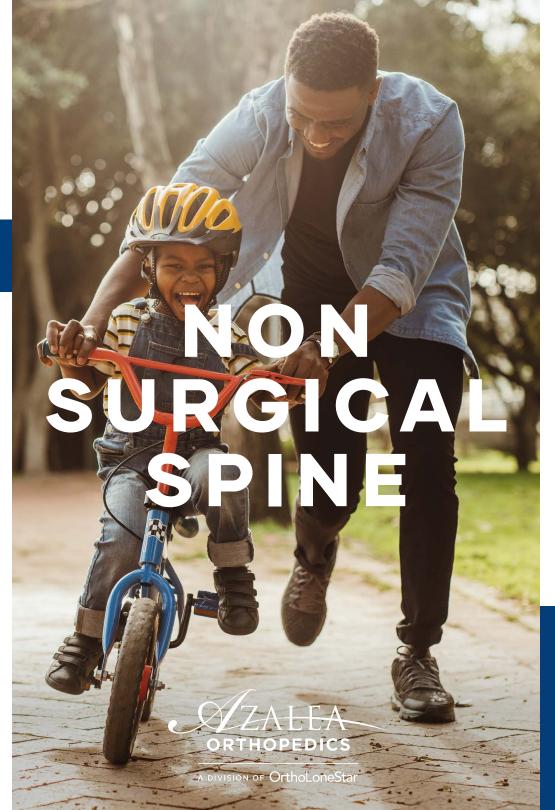

NON SURGICAL SPINE

Our spine team consists of both orthopedic spine surgeons and non-surgical specialists. Our team has the knowledge and expertise to diagnose, rehabilitate and provide comprehensive care.

## COMMON SURGICAL SPINE & NECK TREATMENTS & CONDITIONS:

- + Tumors
- + Infections

  andankylosing
  spondylitis (arthritis
  of the spine)
- + Spinal Stenosis
- + Disc Herniations
- + Minimally Invasive Procedures

- + Robotic Assisted Spine Surgery
- + Fusions
- + Microdiscectomy
- + Kyphoplasty
- + Lumbar
- + Decompression & Fusion
- + Posterior Cervical Decompression

### "Hard work beats talent when talent doesn't work hard."

### -TIM NOTKE

## NON-SURGICAL SPINE

PHYSICAL MEDICINE & REHABILITATION

CHAD MCNEIL, M.D. NPI # 1134326101

Fellowship trained and Board-Certified in Physical Medicine and Rehabilitation. Dr. McNeil's interests include sports medicine, spasticity cases, EMG testing, nerve injuries, spinal cord stimulation, and Botox injections for Chronic Migraines. His practice focuses on both elderly and young patients alike.

**JAMES MICHAELS, M.D.** 

Board-Certified by the American Board of Physical Medicine and Rehabilitation, Dr. Michaels specializes in General Physical Medicine and Rehabilitation, spine and neck pain, spinal injections, electro diagnostics, repetitive motion injuries, and spinal cord stimulation.

JERRY SCHWARZBACH, M.D.

NPI # 1437147550

Board-Certified in Physical Medicine and Rehabilitation, Dr. Schwarzbach has extensive experience and advanced training in electromyography (nerve testing), and neuromusculoskeletal medicine and spine care. With over 35 years of experience, Dr. Schwarzbach has contributed to several publications and professional presentations to the medical community.

"The successful warrior is the average man, with laser-like focus."

- BRUCE LEE

# INTERVENTIONAL PAIN MANAGEMENT

Meet our highly-skilled and experienced Pain Specialists.

DAVID BOWEN, M.D.

NPI # 1972990976

Dr. David Bowen is a Fellowship-Trained Interventional Pain Management who specializes in non-surgical treatment of spine injuries. He is Double Board-Certified in Anesthesia and Interventional Pain Management. His clinical practice focuses on evaluating, diagnosing, and treating individuals suffering from chronic pain. These methods include conservative management with physical therapy, lifestyle changes, non-opioid medical management, and minimally invasive procedures.

**SCOTT BURLISON, M.D.** 

NPI # 1932303534

Fellowship trained and Board-Certified, Dr. Burlison specializes in Interventional Pain Management. He has a particular interest in minimally invasive spine procedures, trigger point injections, spinal cord stimulation and joint and nerve injuries.

CLAIRE TIBILETTI, M.D.

NPI # 1013937556

A graduate of Harvard University, Dr. Tibiletti has practiced Interventional Pain Management in Tyler for more than 25 years. She is one of the six founding members of the Spine Intervention Society (SIS), an international organization of more than 3000 physicians.

Our **pain management specialists** help alleviate and manage chronic pain by using techniques such as injections or rhizotomy to directly treat the source of pain.

## COMMON NON- SURGICAL TREATMENTS AND CONDITIONS

- + Dorsal Root Ganglion
- + Stimulation
- + Migraine Injections (Botox)
- + Trigger Point Injections
- + Vertiflex
- + Neurotomy
- + Spasticity Injections
- + Spinal Cord
- + Stimulation
- + EMG
- + Electromyography

- + Low back pain
- + Muscle and/or bone pain
- + Neck pain
- + Minimally Invasive Spinal Stenosis Treatment
- + Complex Regional Pain Syndrome (CRPS)
- + Foot Drop
- + Musculoskeletal pain

"Whoever is happy will make others happy too."

-ANNE FRANK

## SHOULDER

Meet our highly sought-after group of Orthopedic Shoulder Surgeons

**JUSTIN BARTLEY, M.D.** 

NPI # 1821381997

Dr. Justin Bartley is a fellowship-trained Orthopedic Surgeon specializing in sports medicine, arthroscopy, and comprehensive shoulder surgery. Also, fully trained in general orthopedics and fracture management. Additionally, he has completed dedicated training in hip arthroscopy to better care for young patients with

**JOHN CAMP, M.D.**NPI # 1467440628

Dr. Camp specializes in orthopedic surgery of the hand and upper extremities. Board Certified, American Board of Orthopedic Surgery, and Fellowship-Trained at The Cleveland Clinic & Case Western Reserve University Hospital in Ohio. He has extensive experience treating Carpal Tunnel, Trigger Finger and traumatic hand iniuries.

**CAREY CLARK III, M.D.** 

Dr. Clark specializes in orthopedic surgery of the hand and upper extremities, focusing on reconstruction after trauma and poorly healed past injuries. He sees both adult patients along with pediatrics: Board Certified, American Board of Orthopedic Surgery.

ROBERT DENNIS, M.D.

Dr. Dennis has extensive training in sports medicine, including a fellowship in sports medicine at the North Sydney Orthopedic & Sports Medicine Centre in Sydney, Australia. He is trained in Mako robotic-arm technology. Board Certified, American Board of Orthopedic Surgery

RYAN PATTERSON, M.D.

NPI # 1508040411

Dr. Patterson is a board-certified orthopedic surgeon who sub-specializes in complex hand and elbow injuries. Dr. Patterson has published numerous scientific articles and presented many research studies in orthopedics and hand surgery regionally, nationally and internationally.

**JAMES HARRIS, M.D.**NPI # 1487640173

Dr. Harris did fellowship training in Sydney, Australia where he specialized in sports medicine and complex knee surgery. Prior to Australia, Dr. Harris trained at Shrine Crippled Children's Hospital where he specialized in pediatric orthopedic surgery. Board Certified, American Board of Orthopedic Surgery.

PATRICK WUPPERMAN, M.D.

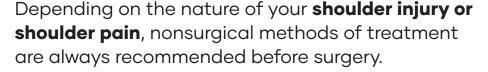

NPI # 153827600

Patrick Wupperman, M.D., is board certified in orthopedic surgery and fellowshiptrained in sports medicine by Dr. James Andrews of Birmingham, Alabama. He has extensive training in complex shoulder and knee injuries and has a special interest in Autologous Cartilage Implantation.

L. MATTHEW JONES, M.D.

Nicknamed "Bones Jones" by President George W. Bush, Dr. Jones specializes in orthopedic surgery with an emphasis on sports medicine and arthroscopic knee and shoulder surgery. Certified in the Mako Robotics System. He is Fellowship-Trained and Board-Certified by the American Board of Orthopedic Surgery.

However, in some cases, delaying the surgical repair of a shoulder can increase the likelihood that the problem will be more difficult to treat later down the road.

Accurate diagnosis and early treatment of shoulder injuries and pain can make a significant difference in the long run.

DAVID KUMMERFELD, M.D.
NPI # 1821257130

Dr. Kummerfeld is a Board-Certified, Fellowship-Trained Orthopedic Surgeon specializing in shoulder and elbow arthroscopy/replacement and upper extremity injuries. Dr. Kummerfeld received advanced training from the world-renowned Kerlan Jobe Orthopedic Clinic in Los Angeles, California.

Meet our industry leading Total Knee Orthopedists.

KNEE

"Do not go where the path may lead, go instead where there is no path and leave a trail."

> -RALPH WALDO **EMERSON**

**JUSTIN BARTLEY, M.D.** NPI # 1821381997

Dr. Justin Bartley is a fellowship-trained Orthopedic Surgeon specializing in sports medicine, arthroscopy, and comprehensive shoulder surgery. Also, fully trained in general orthopedics and fracture management. Additionally, he has completed dedicated training in hip arthroscopy to better care for young patients with hip pain.

TIMOTHY BECK, M.D.

Dr. Beck is a fellowship-trained, Board-Certified orthopedic surgeon specializing in foot and ankle conditions, knee injuries and total ankle

replacements. He has previously served as a Board of Councilor from Texas to the American Academy of Orthopedic Surgeons.

**ROBERT DENNIS, M.D.** 

NPI # 1467448159

Dr. Dennis has extensive training in sports medicine, including a sports medicine fellowship at the North Sydney Orthopedic & Sports Medicine Centre in Sydney, Australia. Certified in the Mako Robotic-Arm Technology, and Board-Certified by the American Board of Orthopedic Surgery.

GARY GOODFRIED, M.D.
NPI # 1750379061

Board Certified for over 30 years, Dr. Goodfried has applied his engineering background and passion for orthopedics to pursue implant designs that continue to lead the way in revision arthroplasty. He specializes in Knee replacements and total hip replacements with anterior approach. Certified in Mako Robotic Arm Technology.

KEN KAMINSKI, M.D.

NPI # 1518136225

Dr. Kaminski specializes in primary and complex hip and knee replacements, revision joint surgery, joint replacements, and hip and knee arthritis. He is Board-Certified by the American Board of Orthopedic Surgery. Dr. Kaminski comes to Azalea from the Mayo Clinic, an internationally renowned institution known for its shaping and influence on primary and revision joint replacement quality. Certified in Mako Robotic Arm Technology.

JAMES HARRIS, M.D.
NPI # 1487640173

Dr. Harris received his fellowship training at the North Sydney Orthopedic and Sports Medicine Center in Sydney, Australia, where he specialized in sports medicine and complex knee surgery. Prior to Australia, Dr. Harris specializes in Shoulder, Knee, Elbow and Sports injuries. Board Certified, American Board of Orthopedic Surgery.

PATRICK WUPPERMAN, M.D.

NPI # 1538276001

Patrick Wupperman, M.D., is board certified in orthopedic surgery and fellowship-trained in sports medicine by Dr. James Andrews of Birmingham, Alabama. He has extensive training in complex shoulder and knee injuries and has a special interest in Autologous Cartilage Implantation.

L. MATTHEW JONES, M.D.
NPI # 1831187905

Nicknamed "Bones Jones" by President George W. Bush, Dr. Jones specializes in orthopedic surgery with an emphasis on sports medicine and arthroscopic knee and shoulder surgery. Certified in the Mako Robotics System. He is Fellowship-Trained and Board-Certified by the American Board of Orthopedic Surgery.

## FOOT & ANKLE

Meet the leaders in foot and ankle care throughout East Texas.

TIMOTHY BECK, M.D.

NPI # 1528056645

Dr. Beck is a fellowship-trained, Board-Certified orthopedic surgeon specializing in foot and ankle conditions, knee injuries and total ankle replacements. He has previously served as a Board of Councilor from Texas to the American Academy of Orthopedic Surgeons.

JOHN PRIDDY, M.D.

NPI # 1891783122

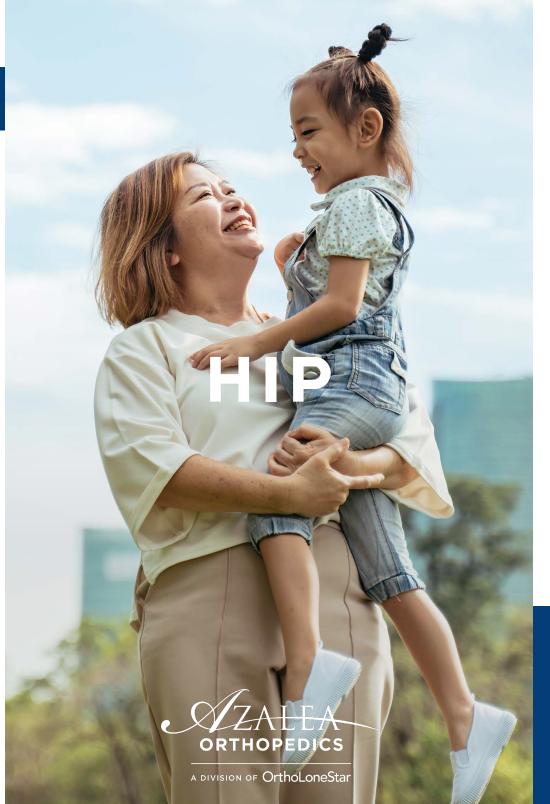

Dr. Priddy is a Board-Certified, Fellowship-Trained Orthopedic Surgeon who has extensive knowledge and advanced training in foot and ankle injuries. He is highly specialized and is one of the few surgeons qualified to perform total ankle replacement surgery in East Texas. He has a particular interest in deformities and traumatic injuries in both adults and children.

Azalea Orthopedics is the leader in foot and ankle care throughout East Texas. We can identify the nature of a foot injury or condition and tailor a winning solution to restore function and eliminate pain. Our specialists are proud to offer Ankle Replacement Surgery as an alternative to Ankle Fusion Surgery.

## COMMON FOOT & ANKLE CONDITIONS AND TREATMENTS

- + Fractures
- + Dislocations
- + Turf Toe Injuries
- + Sprains
- + Diabetic Foot Care
- + Ankle Replacement
- + Surgery
- + Overuse Injuries
- + Tendon Issues
- + Bunions
- + Plantar fasciitis
- + Achilles Tendon Lengthening Surgery
- + Ankle Fusion
- + Metatarsal Surgery
- + Deformity Surgery

## HIP

Meet our industry leading Hip Orthopedists.

"Many of life's
failures are people
who did not realize how
close they were to
success when they
gave up."

-THOMAS A. EDISON

**JUSTIN BARTLEY, M.D.** 

NDI # 1821381007

Dr. Justin Bartley is a fellowship-trained Orthopedic Surgeon specializing in sports medicine, arthroscopy, and comprehensive shoulder surgery. Also, fully trained in general orthopedics and fracture management. Additionally, he has completed dedicated training in hip arthroscopy to better care for young patients with hip pain.

**GARY GOODFRIED, M.D.** 

NPI # 1750379061

Board Certified for over 30 years, Dr. Goodfried has applied his engineering background and passion for orthopedics to pursue implant designs that continue to lead the way in revision arthroplasty. He specializes in Knee replacements and total hip replacements with anterior approach. Certified in Mako Robotic Arm Technology.

JAMES HARRIS, M.D.

NPI # 1487640173

Dr. Harris received his fellowship training at the North Sydney Orthopedic and Sports Medicine Center in Sydney, Australia, where he specialized in sports medicine and complex knee surgery. Prior to Australia, Dr. Harris specializes in Shoulder, Knee, Elbow and Sports injuries. Board Certified, American Board of Orthopedic Surgery.

KEN KAMINSKI, M.D.
NPI # 1518136225

Dr. Kaminski specializes in primary and complex hip and knee replacements, revision joint surgery, joint replacements, and hip and knee arthritis. He is Board-Certified by the American Board of Orthopedic Surgery. Dr. Kaminski comes to Azalea from the Mayo Clinic, an internationally renowned institution known for its shaping and influence on primary and revision joint replacement quality. Certified in Mako Robotic Arm Technology.

Our hip surgeons offer the latest techniques and innovations in their respective field, including arthroscopic repairs, anterior & posterior approaches, acetabulum repairs, minimally invasive procedures, and Assisted Robotic Surgery.

### COMMON HIP CONDITIONS AND TREATMENTS:

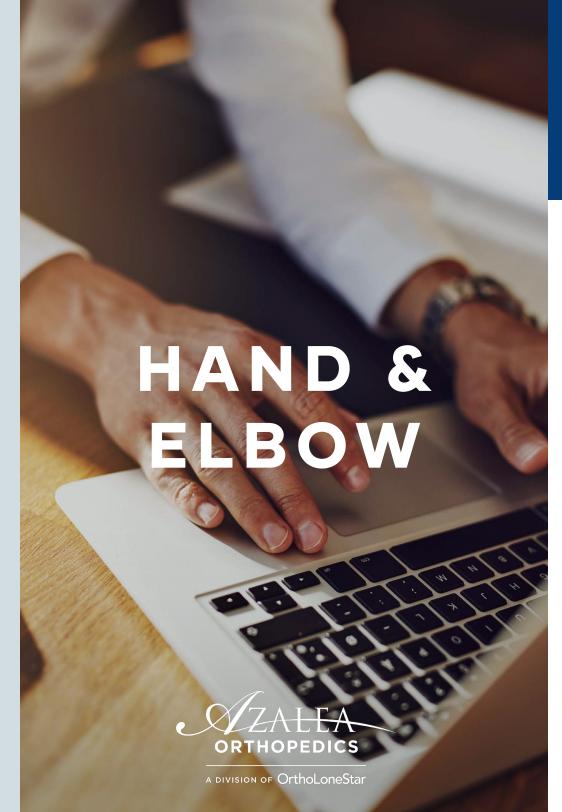

- + Fermoroacetabular Impingement (FAI)
- + Hip Dysplasia
- + Snapping Hip Syndrome
- + Hip Synovitis
- + Hip Bursitis
- + Hip Joint Infection
- + Pelvic Osteotomy
- + Osteoporosis
- + Osteoarthritis
- + Rheumatoid Arthritis
- + Avascular Necrosis
- + Anterior & Posterior Approach
- + Robotic Assisted Surgery
- + Hip Arthroscopy
- + Revisions
- + Hip Resurfacing
- + Fluoroscopic Hip Injections

"Whatever the mind can conceive and believe, the mind can achieve."

- NAPOLEON HILL

"To succeed in life,
you need three
things: a wishbone, a
backbone and a
funny bone."

- REBA MCENTIRE

### HAND & ELBOW

Meet our trusted hand and elbow specialists.

**JUSTIN BARTLEY, M.D.** 

NPI # 1821381997

Dr. Justin Bartley is a fellowship-trained Orthopedic Surgeon specializing in sports medicine, arthroscopy, and comprehensive shoulder surgery. Also, fully trained in general orthopedics and fracture management. Additionally, he has completed dedicated training in hip arthroscopy to better care for young patients with hip pain.

JOHN CAMP, M.D.

NPI # 1467440628

Dr. Camp specializes in orthopedic surgery of the hand and upper extremities. Board Certified, American Board of Orthopedic Surgery, and Fellowship-Trained at The Cleveland Clinic & Case Western Reserve University Hospital in Ohio. He has extensive experience treating Carpal Tunnel, Trigger Finger and traumatic hand injuries.

CAREY CLARK III, M.D.

NPI # 1841288156

Dr. Clark specializes in orthopedic surgery of the hand and upper extremities, focusing on reconstruction after trauma and poorly healed past injuries. He sees both adult patients along with pediatrics: Board Certified, American Board of Orthopedic Surgery.

REBEL HUFFMAN, M.D.

NPI # 1962590976

Rebel Huffman, M.D., is a Board-Certified, Fellowship-Trained orthopedic surgeon specializing in hand and upper extremity injuries. Several factors separate Dr. Huffman's practice from similar specialty surgeons, including providing a local anesthesia surgery option for patients suffering from carpal tunnel and trigger finger. This alternative can help eliminate possible complications of general anesthesia.

53

L. MATTHEW JONES, M.D.

Nicknamed "Bones Jones" by President George W. Bush, Dr. Jones specializes in orthopedic surgery with an emphasis on sports medicine and arthroscopic knee and shoulder surgery. Certified in the Mako Robotics System. He is Fellowship-Trained and Board-Certified by the American Board of Orthopedic Surgery.

DAVID KUMMERFELD, M.D.
NPI # 1821257130

Dr. Kummerfeld is a Board-Certified, Fellowship-Trained Orthopedic Surgeon specializing in shoulder and elbow arthroscopy/replacement and upper extremity injuries. Dr. Kummerfeld received advanced training from the world-renowned Kerlan Jobe Orthopedic Clinic in Los Angeles, California.

RYAN PATTERSON, M.D.
NPI # 1508040411

Dr. Patterson is a board-certified orthopedic surgeon who sub-specializes in complex hand and elbow injuries. Dr. Patterson has published numerous scientific articles and presented many research studies in orthopedics and hand surgery regionally, nationally and internationally.

PATRICK WUPPERMAN, M.D. NPI # 1538276001

Patrick Wupperman, M.D., is board certified in orthopedic surgery and fellowship-trained in sports medicine by Dr. James Andrews of Birmingham, Alabama. He has extensive training in complex shoulder and knee injuries and has a special interest in Autologous Cartilage Implantation.

Our Hand and Elbow Team have vast experience treating traumatic and athletic injuries. When an injury occurs, a birth defect or degenerative condition needs attention, finding a great hand surgeon is crucial.

### COMMON ELBOW CONDITIONS AND TREATMENTS

- + Elbow Fractures/Repair
- + Tommy John Elbow
- + Tommy John Repair
- + Tennis Elbow (lateral Epicondylitis)
- + Golder's Elbow (medial Epicondylitis)
- + Ulnar Nerve
- + Entrapment/Surgery
- + Radial Tunnel Syndrome
- + Biceps Injury/Repair
- + Elbow Replacement
- + Radial Head Replacement
- + Radial Collateral Ligament
- + Elbow Arthroscopy
- + Triceps Injury/Repair

## COMMON HAND CONDITIONS AND TREATMENTS

- + Fractures
- + Tendon Injury & Repairs
- + Carpal Tunnel Syndrome
- + Carpal Tunnel Release
- + Ulnar Nerve Release
- + Trigger Finger/Release
- + Thumb Base Arthritis/ Reconstruction
- + Ligament Injury/Repair
- + Tendon Transfers
- + Arthritis

## COMMON WRIST CONDITIONS AND TREATMENTS

- + Carpal Fractures & Repair
- + Distal Radius Fracture & Repair
- + Ulnar Fractures & Repair
- + Carpal & Ligament Instabilities
- + Tendon Repairs
- + Ganglion Cyst Excision
- + Arthritis & Reconstructions
- + Dequervain's Tenosynovitis/Surgery
- + Tendonitis
- + Tendon Transfers
- + Dupuytren's disease

"The secret
of success is to
do the common thing
uncommonly well."

-JOHN D.
ROCKEFELLER JR.

### SPORTS MEDICINE

Our sports medicine doctors help maximize function and minimize time away from sports, work or school.

JUSTIN BARTLEY, M.D.

NPI # 1821381997

Dr. Justin Bartley is a fellowship-trained Orthopedic Surgeon specializing in sports medicine, arthroscopy, and comprehensive shoulder surgery. Also, fully trained in general orthopedics and fracture management. Additionally, he has completed dedicated training in hip arthroscopy to better care for young patients with hip pain.

ROBERT DENNIS, M.D.

NPI # 1467448159

Dr. Dennis has extensive training in sports medicine, including a sports medicine fellowship at the North Sydney Orthopedic & Sports Medicine Centre in Sydney, Australia. Certified in the Mako Robotic-Arm Technology, and Board-Certified by the American Board of Orthopedic Surgery.

JAMES HARRIS, M.D.

NPI # 1487640173

Dr. Harris received his fellowship training at the North Sydney Orthopedic and Sports Medicine Center in Sydney, Australia, where he specialized in sports medicine and complex knee surgery. Prior to Australia, Dr. Harris specializes in Shoulder, Knee, Elbow and Sports injuries. Board Certified, American Board of Orthopedic Surgery.

L. MATTHEW JONES, M.D.

Nicknamed "Bones Jones" by President George W. Bush, Dr. Jones specializes in orthopedic surgery with an emphasis on sports medicine and arthroscopic knee and shoulder surgery. Mako robotics certified. Board Certified, American Board of Orthopedic Surgery.

DAVID KUMMERFELD, M.D.
NDI # 1821257130

Dr. Kummerfeld is a Board-Certified, Fellowship-Trained Orthopedic Surgeon specializing in shoulder and elbow arthroscopy/replacement and upper extremity injuries. Dr. Kummerfeld received advanced training from the world-renowned Kerlan Jobe Orthopedic Clinic in Los Angeles, California.

PATRICK WUPPERMAN, M.D.

Patrick Wupperman, M.D., is board certified in orthopedic surgery and fellowship-trained in sports medicine by Dr. James Andrews of Birmingham, Alabama. He has extensive training in complex shoulder and knee injuries and has a special interest in Autologous Cartilage Implantation.

The Sports Medicine orthopedists of Azalea Orthopedics provide comprehensive care for athletes of all abilities – from the weekend warrior to the professional athlete. Our specially trained physicians promote lifelong fitness and wellness and encourage prevention of illness and injury.

## COMMON SPORTS RELATED CONDITIONS AND TREATMENTS

- + Arthroscopic Shoulder Surgery
- + Hip Arthroscopy
- + Complex Shoulder Problems, ACL & PCL Reconstruction
- + Hip Preservation Surgery
- + Elbow Arthroscopy & Reconstruction, Articular Cartilage Restoration
- + Meniscal Repairs & Allografts
- + Shoulder & Elbow Injuries in Throwing Athletes
- + Common examples of musculoskeletal problems
- + Ankle & Muscle Strains
- + Knee & Shoulder Injuries & Fractures
- + Overuse Injuries (such as Tendonitis, Stress Fractures)
- + Tommy John Surgery
- + Fractures
- + Turf Toe

RTHOPEDIC TRAUMA

"There are no secrets to success.

It is the result of preparation, hard work, and learning from failure."

-COLIN POWELL

"Don't judge each
day by the harvest you
reap but by the seeds
that you plant."

-ROBERT LOUIS
STEVENSON

## ORTHOPEDIC TRAUMA

Traumatic injuries can happen to anyone, any time. These types of injuries can be life-altering; it's essential to use a specialty-trained orthopedic trauma surgeon, also known as a traumatologist. We have the specialists ready and able to handle complex and traumatic injuries.

Our patients are of the highest importance; that's why we have a surgeon on call 24/7 to answer questions and concerns. Shall our patients need immediate assistance day our night, they simply call 903-939-7500.

KEVIN LUTTRELL, M.D.
NPI # 1457686677

Dr. Luttrell is a graduate of the Harvard Orthopedic Trauma Fellowship Program. In his time at Harvard, he learned advanced techniques focused on post-traumatic reconstruction cases, hip replacements, and fracture care procedures. He is a member of the Orthopedic Trauma Association and Board Certified by the American Board of Orthopedic Surgery.

# OCCUPATIONAL THERAPY

## COMMON LIST OF TRAUMATIC CONDITIONS AND TREATMENTS

- + Acetabulum Repairs
- + Fractures
- + Dislocations
- + Malunions & Nonunions
- + Traumatic Amputations
- + Pelvic Fractures

"The only impossible journey is the one you never begin."

-TONY ROBBINS

# The Occupational Therapists at Azalea Orthopedics treat shoulder orthopedic injuries, elbow and hand orthopedic injuries, and neurological and neuromuscular injuries.

Treatment focuses on decreasing pain and swelling, increasing range or motion, increasing strength and endurance, conditioning for return to work, and conditioning for return to sport. Postural education is provided so that proper spine and shoulder alignment is attained and weaknesses are addressed to maximize strength and core stability of the entire upper body. The goal is to return people back to their pre-injury level of performance. In the case of severe orthopedic or neurological injuries, we help a person regain as much function as possible and adapt as needed for successful completion of daily living tasks and/or work. Our Occupational Therapists receive specialized training in the rehabilitation of the shoulder, elbow, wrist and hand.

### **CONDITIONS TREATED**
